What is it exactly that makes a country style house so welcoming? Is it the soft washed colors of a shabby chic ensemble? Or maybe it is the sense of granny's kitchen you get from a country style home that makes it so cozy? Whatever it is, we just can't get enough of it. This week, we take a look at the American styled kitchen cabinets, quilts and what really puts it all together as we focus on this all-time favorite interior.

Speaking of all-time favorite, the W Chair (<http://www.ezmodfurniture.com/the-w-chair-set-of-4.html>) is agreeably a top candidate in this category. In fact, this chair is so universal, it can be decorated as refined or rustic. Not only is it an attractive chair that can stand alone as an accent chair, it can also be used as a dining chair. Did we mention each seat is made up of rattan, one of the strongest materials out there? The W chair wood frame is available in four colors and all with natural color rattan rope. Looking for something a bit more edgy? Take a look at the black W chair with the black rattan seat! The W Chairs compliment almost any kind of flushed or washed colors in a kitchen or dining area. Pair the W chairs with a distressed table and watch how this transforms the entire room.

channeling early farming traditions. This handsome retro-inspired chair features traditional wood and is paired with a modern design, resulting in a unique piece for your home. The frame consists of solid wood with a natural finish, a comfortably-curved backrest, and black leatherette seat. The combination of rich brown wood and finely upholstered leather makes this chair an excellent addition to any room. Throw a hand stitched quilt on it for an even more rustic look!

Let early America ring with Solid Wood Chair (<http://www.ezmodfurniture.com/solid-wood-chair.html>)- frame consists of solid wood with a natural finish, a comfortably-curved backrest, and black leatherette seat.

Now here is an all American sweetheart! The Block Table Set (<http://www.ezmodfurniture.com/block-table-set.html>) is also another flexible piece that would fit in almost any interior. This set is a simple wood table with four padded chairs (if dark grey is not in your color scheme, you can always throw on a seat pad of your choice!), this set will function nicely in any area of your home or business.
